## EXPERIENCE

**Software Engineer**  
Eszmeletlen Holding Co.(MakeStories)

Sept 2021 - Present  
*Mumbai, India*

- Transitioned the news18 website from PHP to React and Nextjs, thus improving performance and maintainability.
- Created a micro-site for the 2020 T20 World Cup with React and Nextjs.
- Part of the election core team at news18 responsible for building and maintaining the election website, ensuring 100 percent up-time during election results day.
- Developed and maintained a set of reusable React components with Tailwindcss, significantly improving UI consistency.
- Leveraged Svelte in MakeForm's rendering, reducing the bundle size and improving performance.
- Integrated Stripe for seamless payments integration with MakeForms.

**Software Developer**  
Rajkamal Barscan Systems Pvt Ltd

Aug 2019 - Aug 2021  
*Mumbai, India*

- Delivered over six client-facing applications using ASP.Net and MSSQL, meeting client requirements and deadlines.
- Designed and developed a Barcode Label Printing application for a major lifestyle brand, streamlining product labeling process.
- Built a comprehensive Warehouse Management System, tracking products from manufacturing to dispatch, and generating detailed reports.

## PROJECTS

**MakeForms - A SaaS** tool for creating forms with an drag-and-drop based editor and allowing them to publish on their domains. I created the dashboard for **MakeForms** with Typescript, React and Tailwindcss. I also worked on Svelte for the rendering of **MakeForms**.

**Baked (Personal Project) -** Created an e-commerce application for a bakery as a final year project using ASP.NET and MSSQL, demonstrating full-stack development capabilities.
